- **Aluminium casing** with nano technology far infrared heating element
- **Slim white design**, made to blend in. Perfect for hard to heat areas
- Inbuilt overheat **protection facility**
- Heats within **2 minutes**
- **Surface Temperature:** 290°C - 350°C

Heat coverage: 40m³ - 29m³

INSTALLATION RECOMMENDATIONS:

Heater is supplied with a wall mounting kit for installation. Should be installed at a minimum height of 2m. If used outside, please provide cover for direct rain. Supplied with wall mounting kit.

Very popular in commercial spaces and increasingly the choice of organisations who are looking for easy to install, safer, long lasting and cheaper to run heating solutions.

Please note that a slight change in surface colour may occur during use as a natural result of the heater's operation at high temperatures. This does not affect performance or safety.
